What is it?

Body Shape Rating (BSR) is a wellness score based on the relationship of your body shape to cardiovascular related risk factors. It answers the question, Is my body shape making it more likely for me potentially develop certain cardiovascular related health issues? BSR is on a 0-100 range where 50 is average and the higher the score the lower the risk. [Read More](#).

Fit3d is safe for all

Fit3d is likely the safest mobile scanner on the NZ market

Unlike other mobile body scanners, Fit3d Pro Scanners are **SAFE** for those who are

- Pregnant
- Have a Pace-maker
- Have artificial limbs
- Have sight impairment

Here's How Fit3d do it:

- No bio-impedence/electrical currents are used
- 3 accurate infrared cameras included
- Handles provided for accuracy and safety
- Fit3d platform rotates slowly during the 35 sec scan

Collect meaningful data and decrease your health and safety risk.
